

PROSPECTUS

ACADEMIC SESSION 2024-25

**FOR THE GOVERNMENT MEDICAL & DENTAL
COLLEGES OF BALOCHISTAN**

FOREWORD

Welcome to the world of healing, care and compassion.

Medicine and Dentistry are the noblest of professions and attract the most brilliant students. These students demand a system of selection that is duly probing, robust, transparent and fair. The Government of Balochistan has consistently strived to make the whole process of admissions structured and transparent so that suitable and potential candidate are considered for admission. The Government takes concrete step to ensure that all candidates may have equal opportunity to show their suitability for the undergraduate course and entry to the medical and dental profession based on the principles of merit, justice, equity and transparency.

Students joining medical and dental institutions should be ready to accept the challenges that time has brought to and will continue to bring to medicine. It is an exciting time for an undergraduate of medical and dental education, and the passions, beliefs and enthusiasm of those who will embark on a satisfying and challenging career are well placed to positively influence and advance the undergraduate learning environment in our institutions.

If you enjoy helping people, Medicine and Dentistry are the most rewarding careers you can choose. As a doctor you will be involved in diagnosing and treating illness and providing advice and reassurance to your patients. It requires an enquiring mind, the capacity to acquire and maintain high levels of knowledge and the ability to relate to individuals each with their own health needs.

Students, however, should be aware of hard work ahead of them as they enter medical and dental section. However, from admission to graduation they must feel confident that the policies of Government of Balochistan are fair, transparent and equitable.

The Prospectus has been designed to facilitate the applicants. Every possible effort has been made to make this Prospectus user friendly so that the candidates may independently comprehend its contents. The Prospectus is meant in particular about rules and regulations for selection and admission of candidates. Furthermore, it also outlines the courses of study and examination pattern for both MBBS and BDS students.

We look forward to welcoming you to the first step along your career path in Medicine and Dentistry.

INTRODUCTION MEDICAL COLLEGES OF BALOCHISTAN IN ALPHABETICAL ORDER

BOLAN MEDICAL COLLEGE, QUETTA

Bolan Medical College, Quetta, a seat of Medical Education in Balochistan has a checkered history.

After partition, the country was deficient in trained medical manpower. To fill the gap in a short period of time the Government of Pakistan decided to start Condensed Medical Courses and for that a series of Medical Schools were established in the country. Thus in 1952 Amin-u Din Medical School was started in Balochistan. It worked for seven years and was closed as a matter of policy that a Medical College to be opened to train fully qualified Doctors in the country at the level of MBBS and beyond.

Earlier on, the medical students from Balochistan had to seek admission in the other medical colleges of the country and were facing great difficulty. After Balochistan got the status of a separate Province in 1970 the people of Balochistan started demanding a Medical College of their own. In March 1971, it was agreed in principle that a Medical College will be opened in Balochistan at Quetta.

In 1972, the Government of Pakistan acceding to the demand of the people of the province and formally decided to set-up a Medical College "Bolan Medical College (BMC)" at Quetta and agreed to run it as a Federally Funded Project.

Pending the construction of a new full-fledged Hospital and College Building, the clinical classes were started in Sandeman Provincial Hospital (SPH) Quetta and basic classes in the building of a para- Medical School acquired for the College. The BMC college is shifted to the main building of College and the Hospital to attached BMCH hospital building. Now the attached hospitals are SPH, BMCH, Fatima Jinnah hospital and Helper's Eye Hospital. The laboratories of the basic Departments have been equipped with most modern equipment while the old building is used for Hostel purpose. Later on, BDS classes were started in 1985 and presently a fully functional Bolan Dental Section of the BMC is working under administration of Principal BMC.

Forty-six (46) batches of students numbering 7787 (approximately) have already qualified from BMC. 627 BDS Doctors have qualified from this institution and Thirty-four (34) batches are due to pass-out. BMC faculty is also delivering postgraduate teaching and training of medical doctors of Balochistan.

Sub Office of PM&DC is functional since October 2004, facilitating the students and Doctors getting their licenses.

A branch of Pakistan Medical Research Council is functioning since 1979, where the Principal BMC is working as Honorary Director, for up-dating the knowledge of the Teachers.

Plans are under way to introduce Computer literacy classes, open a medical education Department, establish a Resource Centre, a skills laboratory and upgrading the library to meet the new challenges of the time.

INTRODUCTION OF THREE MEDICAL COLLEGES

MBBS SEATS IN JHALAWAN MEDICAL COLLEGE, KHUZDAR, LORALAI MEDICAL COLLEGE, LORALAI AND MEKRAN MEDICAL COLLEGE, TURBAT.

Establishment of three Medical Colleges in Balochistan was notified by Government of Balochistan, Health Department vide Notification No. SO-III (H) 2-1/2017/4048-57, dated 24th February 2017.

JHALAWAN MEDICAL COLLEGE (JMC), KHUZDAR

Named after the Jhalawan region- the princely state of Khan of Kalat, comprising valleys of Zehri, Injira, Naal, Moola, Ferozabad, Wadh and Saroona. It borders with the states of Kharan on one side and on the other side with Mekran. This region has been a gateway stretching back to the time of Alexander the great, who marched one portion of his army to Sindh via Moola pass. Situated in the heart of the Jhalawan Region, Khuzdar, JMC holds the title of being located in the 2nd biggest city of Balochistan which is also home to the public sector Engineering University of Balochistan, Residential College Khuzdar, and also Sikandar Shaheed University, Khuzdar.

JMC started admissions of its first batch in May 2018. The college started functioning in a temporary building situated on the main RCD Road that spreads over an area of 27 acres with four Lecture Halls, four Museums, a full-fledged Computer Library, a Library of Medical Books, 1 Dissection Hall, 2 Common Rooms for Students and an Auditorium for co-curricular activities, all Basic Departments, Administration Offices, Bachelor Lodge and Student Hostel. There is a football ground, cricket ground and a basket-ball court for the students. DHQ Teaching Hospital, Khuzdar is affiliated hospital of JMC housing 200 beds. There is a boys and a girls hostel for Jhalawanians in the center of city and another boys hostel in the college campus. The Main college building is under construction in the Educational Enclave of Khuzdar sandwiched by BUETK, Sikandar Shaheed University and Institute for Special Children. The main campus has an area of 500 acres and a modern-day Teaching Hospital is also under construction at the future site of the College.

LORALAI MEDICAL COLLEGE (LMC), LORALAI

Formerly known as Bori, Loralai district is located at North East of Balochistan. The word Loralai is derived from a stream called Loralai which flows in the southern part of the town with rugged terrain and arid climate. Loralai is counted amongst the vastly underdeveloped districts of Pakistan.

Owing to their abject poverty and primordial healthcare setup of the district people of Loralai have little access to healthcare facilities. Two hospitals, two rural healthcare centers and 28 basic health units (as per Project and Development Department of Balochistan report) are not enough to cater for the healthcare demand of 400,000 inhabitants of Loralai. There is also an acute shortage of skilled medical staff and basic health facilities that has resulted in poor health Indicators including low Immunization coverage and high child mortality rates in the district. Establishment of a Medical College would potentially reverse the fortunes of Loralai abysmal healthcare situation. Acting as a tertiary care hospital and as a medical learning and training Institute, Loralai Medical College, Loralai would not only introduce new healthcare facilities and medical expertise, but at same time will improve the standard of existing healthcare infrastructure.

In conclusion, Loralai Medical College, Loralai will play a pivotal role in future in providing health facilities in an area which remained neglected socially and economically. LMC will contribute in providing tertiary care facilities at door step in the remote area of province and will facilitate for the shortage of doctors in the province of Balochistan.

MEKRAN MEDICAL COLLEGE (MMC), TURBAT

The Government of Balochistan has established three more medical colleges in the province including Mekran Medical College, Turbat through public sector development program during the year 2013-14.

The District Headquarters Hospital, Turbat has been declared as attached Teaching Hospital of MMC. In May 2018 the College started functioning and admission of students in 1st year MBBS has been made as per admission policy of Government of Balochistan. The classes of 1st year MBBS has been started from 17th May 2018.

The Museum, Library, Basic Sciences Laboratories, Dissection Hall with (Human dead body), Auditorium, Common Room for Boys & Girls, Cafeteria, indoor and outdoor Sports facilities including Transport have been provided to the students of the college.

The college would enhance medical education in the province and would provide specialized services by qualified and highly skilled consultants. After having graduated from this college the doctors thus produced will provide primary and secondary healthcare facilities in the entire province.
